

**Lenore R. Rudick, President/Owner, Harford Heights**

After 27 years as an office manager for a busy dermatology practice the boss retired, so Lenore decided it was time to bring her talents to the Harford Heights after-school program.

Making the commitment to go back to school to become certified, Lenore eventually worked at Garrison Forest, serving as the program Site Director for 9 years. When her husband 'Mr. Stan' became ill, Lenore continued to be involved, but daughter Michele (Rudick) Berman stepped in to take over the director responsibility.

When Stan passed away in 2015, Lenore became president/owner of the corporation. She takes great pride that both of her children are involved with Harford Heights, so Stan's legacy of family tradition continues.
